ADDENDUM NO. 1

Date of Addendum: March 6, 2018

Traxler Drive Improvements
Project #2-2018
Bid Date: March 12, 2018

TO ALL BIDDERS:

The Following Changes Have Been Made To The Bidding Documents:

- The Bid Time on Project Manual is incorrectly listed at 11:50 AM. Correct time is 11:15 AM.
- Project Manual Item 00120 #4, Substantial Completion Date is Corrected to 10/19/2018
- Project Manual Item 00130 Section 5, Clarification of Bid Item 9 – 642 Pavement Striping and Additive Alternate.
-

On line documents will be revised at: <http://www.wmscoengineer.com/bidprojects.asp>, and changes will be sent to plan holders via email.

Please advise this office if you have questions concerning these changes.

Thank you.

Respectfully,

Todd J. Roth, P.E., P.S.
Williams County Engineer

Bidder shall fully inform himself of all existing conditions and limitations under which the work is to be performed. Submission of a bid shall be taken as evidence that the bidder has made such an examination.

END OF ITEM

ITEM 00130

SUPPLEMENTAL SPECIFICATIONS

Section 1: All work shall be performed in accordance with The Ohio Department of Transportation, Construction and Material Specifications, 2016, except as modified in the contract specifications, plans, or project manual.

In matters concerning conflicts between the referenced 2016 CMS or Project Specifications, the Project Specifications, Plans, or Project Manual shall govern.

Section 2: The Engineer acknowledges the time from award to completion involves a lengthy time period. However, in order to efficiently complete the project and limit the time Traxler Drive is “under construction” the Engineer will require that the time period for active construction involving lane closures and other traffic maintenance items be no longer than Forty-Five (45) consecutive days.

Section 3: As a matter of information, the project is being funded by local dollars, State Grant Ohio Development Services Agency, ODOT Economic Development Grant, and ODOT Transportation Improvement District Grant. The Original deadline for disbursement of funds from two of the Agencies is 5/30/18. An extension of six months is attainable. With processing time being considered final quantities and final change order numbers must be attainable by 10/19/18. Final Completion and processing of all pay applications and contract related documents must occur no later than 11/2/18. Grant funds are distributed to the Owner on a reimbursement basis, therefore documentation of contractor payment will be needed in advance of the revised 11/30/18 reimbursement application deadline.

Section 4: The RFC Log as Posted on the Engineer’s Web Page, until the time of bidding will become part of the Contract Documents.

Section 5: Bid Item 9 – 642 Pavement Striping, a base bid item, consists of all pavement marking required for the project with Type 1, 20 Mil Thickness at the rates specified in 642.04.

Additive Alternate 1 - Thermoplastic Pavement Marking. The cost associated with this alternate bid item should be the additive cost to Bid Item 9 for 644 Thermoplastic Marking in specified areas at the intersections of State Route 15 and Township Road 15 as shown on Sheet 5 of the drawings. The typical notation from Station 6+25 to Station 47+30 would remain 642. If alternate is awarded the LS cost for the Additive Alternate and the LS cost for Bid Item 9 would be total price for Pavement Striping.

Traxler Drive Improvements – Project #2-2018
As Revised By Addendum 1
