OHIO UTILITIES PROTECTION SERVICE

Permission is hereby requested to install and maintain the following utility:

PROJECT: _____

LOCATION: _____

REF NO.: _____ Construction Starts: _____ Construction Complete: _____

GENERAL CONDITIONS:

- All disturbed areas shall be promptly restored to the original condition
- The cutting of pavement is not permitted except when specifically authorized by granting authority.
- The use of the pavement lane or berm for deposit of excavated materials will not be permitted.
- This permit is valid only within the right-of-way of the named public road.
- The permit holder and permit holder's contractors shall abide by the regulations for safety as detailed in the Manual of Uniform Traffic Control Devices and all OSHA standards.
- The permit holder will be required to make any necessary repairs or relocation of facilities within or over the existing right-of-way promptly at permit holder's expense to accommodate any improvement or repairs undertaken by the County.
- This permit is valid for the installation only. Future installations or reconstruction will require a new permit.
- A permit will be required for installation constructed on private property which must cross over or under the road right-of-way.
- The permit holder and permit holder's contractors shall be responsible for calling the Ohio Utilities Protection Service prior to construction.
- Plans and specifications shall be submitted with this permit.
- All affected property owners shall be notified by the permit holder, at least 48 hours prior to commencement of work.
- Permit holder shall be responsible for and save the County/Township harmless from all damages and claims to persons or property due to or resulting from any work performed under this permit and shall defend any action brought due to this work.
- Permit holder shall be responsible for any pavement and berm failure or trench settlement occurring within twelve months of completion of this project, if determined to have resulted from operations within the right-of-way.
- Applicant shall provide the County with a current certificate of insurance listing the Williams County Commissioners as also insured.
- Applicant shall provide evidence of coverage for Workman's Compensation coverage in the State of Ohio.
- Approvals from Williams County do NOT include approvals for other agencies having jurisdictional authority, including but not limited to: Ohio Department of Transportation, Ohio Turnpike Commission, Ohio EPA, and Rail Roads.
- Applicant is responsible for the accurate determination of the Right of Way widths and Centerline, Pavement Centerlines are NOT to be assumed as the Centerline of the Right of Way, and GIS information concerning Right of Way dimensions should be verified. Right of Way widths may NOT be uniform.
- Contact information for Contractors and Sub-Contractors should be provided to the Williams County Engineer prior to commencement of construction activities.
- Road Closure must be approved in advance. Initial applications do not include any road closures. All proposed work should be conducted with Traffic Maintained.
- Bore Pits Should be located a minimum 10 feet from the pavement edge.
- Permission must be obtained from the landowner to work or have a presence on land off of the Right of Way.
- Residential, Commercial, Industrial, and Agricultural driveways should be bored / directionally drilled.
- Applicant shall provide the Williams County Engineer with as built drawings.
- Failure to comply with permit requirements may result in revocation of the permit or result in a cease of work order from the Williams County Commissioners.

I HERE BY AGREE TO ABIDE BY THE CONDITIONS STATED HEREIN DURING THE CONSTRUCTION AND MAINTENANCE OF THIS SYSTEM.
